## ACRONYMS

ADA	Assistant Director Agriculture
AES	Agriculture Extension Services
AF	Acre-Feet
AJK	Azad Jammu & Kashmir
AOSM	Adjustable Orifice Semi-Module
AWPB	Annual Work Plan and Budget
AWPs	Annual Work Plans
BCR	Benefit Cost Ratio
CFT	Cubic Feet
CMS	Content Management System
CSRD	Center for Social Research and Development
DAES	Director Agriculture Extension Services
DDA	Deputy Director Agriculture
DGA	Director General Agriculture
DTL	Deputy Team Leader
EAs	Executing Agencies
EIRR	Economic Internal Rate of Return
FCR	Financial Completion Report
FCRs	Final Completion Reports
FMFSR	Framework for Federal Financial Management System
FOs	Farmers Organizations
FPMU	Federal Project Management Unit
FTI	Field Team In charge
FWMC	Federal Water Management Cell
GAP	Gender Action Plan
GB	Gilgit Baltistan
G3EC	G3 Engineering Consultants
GIS	Geographic Information System
HEIS	High Efficiency Irrigation System
IAs	Implementing Agencies
ICR	Interim Completion Report
ICT	Islamabad Capital Territory
IRR	Internal Rate of Return
ICT	Information & Communication Technology
JV	Joint Venture
KP	Khyber Pakhtunkhwa
LLL	Laser Land Leveler
LPS	Liter per Second
M&E	Monitoring and Evaluation
MAF	Million Acre Feet
ME&IE	Monitoring Evaluation and Impact Evaluation
MIS	Management Information System
MNFSR	Ministry of National Food Security and Research
MMR	Monthly Monitoring Report
MT	Monitoring Template

MTE	Mid-Term Evaluation
NESPAK	National Engineering Services Pakistan
NPC	National Project Coordinator
NPIWC	National Program for Improvement of Watercourses
NPV	Net Present Value
NWMC	National Water Management Consultants
ODK	Open Data Kit
OFWM	On-Farm Water Management
PC-1	Planning Commission-(Form-One)
PDO	Project Development Objectives
PIC	Project Implementation Committee
PIES	Project Impact Evaluation Study
PQC	Pre-Qualification Committee
QM&ER	Quarterly Monitoring and Evaluation Report
RBM	Results-Based Management
RFT	Running Feet
RWD	Responsive Web Design
SFT	Square Feet
SOPs	Standardized Operating Procedures
SPSS	Statistical Package for Social Sciences (Software)
SSCs	Supply and Service Companies
TABs	Tablets
TL	Team Leader
TOR	Terms of Reference
TPV	Third Party Validation
TWRD	Tail-Water Recovery Ditch
WG	Women Group
WST	Water Storage Tank
WUAs	Water Users Associations

## EXECUTIVE SUMMARY

The “Monitoring Report for the month of January 2024” comprises five chapters:

**Chapter-1** describes the detailed introduction and description of the project. The Government of Pakistan is implementing a project entitled “National Program for Improvement of Watercourses in Pakistan Phase-II” (NPIWC-II) at a total cost of PKR 154,542.355 million (Umbrella PC-I including Sindh) over a period of 05 years. This project will cover Punjab, Khyber Pakhtunkhwa (KP), Baluchistan and Gilgit Baltistan (GB), Azad Jammu & Kashmir (AJ&K) as well as Islamabad Capital Territory (ICT). The present project is beneficial for the country.

The NPIWC-II comprises four components to be implemented in Punjab, KP, Balochistan, GB, AJ&K, and ICT:

- i) C1: Organization of Water Users Associations
- ii) C2: Watercourse Improvements: 47,278 Nos.
- iii) C3: Construction of Water Storage Tanks: 14,932 Nos.
- iv) C4: Provision of Laser Land Leveling Units: 11,610 Nos.

**Chapter-2** elaborates the objectives and scope of work of the ME&IE Consultants for the project. Since the ME&IE Consultants are going to monitor implementation of all criteria set, procedures defined, and timeline agreed for implementation of various components. All these are reproduced in this report as ready reference to devise / design M&E strategy, methodology, procedures for monitoring and impact assessments of the project interventions.

The monitoring strategy followed by ME&IE Consultants is briefly described in Table-2.1. The strategy has been finalized and implemented in close coordination with the client and active participation of the beneficiaries as well as the project stakeholders.

**Chapter-3** explains the purpose of the Monthly Monitoring Report (MMR). This current MMR covers the period from 1<sup>st</sup> January 2024 to 31<sup>st</sup> January 2024.

This chapter also covers the activities of ME&IE Consultants, carried out during the reporting period which are summarized below:

- Regular Monitoring of Interventions in the Field
- Baseline and Endline Impact survey Field visits
- Monitoring online data collection and Data entry
- Monitoring Android-based Mobile Application under implementation by field staff.
- Data collection of interventions in MIS/GIS database
- Submitted the MMR for the Month of December 2023.
- Meetings of ME&IE Consultants with Stakeholders about Project Progress / Issues

**Chapter-4** highlights the quarterly work plan from 1<sup>st</sup> January 2024 to 31<sup>st</sup> March 2024. The work plan consists of the following activities:

- Pre-field Activities
- Field Activities
- ICT Assignment
- Coordination Meetings
- Deliverables

The detailed time span for the 4<sup>th</sup> quarter of year 2023 is provided in the Tentative Work Plan **Annex-A**.

**Chapter-5:** Issues / problems faced by the consultants during the reporting period of the assignment are described in this Chapter.

Table-1: Compliance Status of Tentative Work Plan during Reporting Period

No.	Activities Planned for the Reporting Quarter		Status
<b>1</b>	<b>Pre-Field Activities</b>		
1.1	Refresher Training of Field Staff for Baseline & Endline Impact Survey		Completed
<b>2</b>	<b>Field Activities:</b>		
2.1	Regular Monitoring of Interventions in the field		In Progress
2.2	Data collection of the interventions in the field		In Progress
2.3	Baseline and Endline Impact survey Field visits		In Progress
2.4	Online data entry in android-based application		In Progress
<b>3</b>	<b>ICT Assignment:</b>		
3.1	Improvement of website of NPIWC-II		In Progress
3.2	Monitoring online data collection and Data entry		In Progress
3.3	Monitoring Android based Mobile Application under implementation by field staff.		In Progress
3.4	Data collection of interventions in MIS/GIS database		In Progress
3.5	Capacity Building Trainings / Refresher of Departments		In Progress
3.6	Data Cleaning.		In Progress
<b>4</b>	<b>Coordination</b>		
4.1	Meetings of TL, ME&IE Consultants with NPC regarding Project Progress / Issues		Meetings conducted on regular basis
4.2	Meeting of DTLs with respective DTL of NWMC		Meetings conducted on regular basis
4.3	Internal Meetings of ME&IE Consultants		Weekly meetings conducted on regular basis
<b>5</b>	<b>Deliverables:</b>		
5.1	Monthly Monitoring Reports (MMRs)	36 <sup>th</sup> MMR (Dec 2023)	Submitted
		37 <sup>th</sup> MMR (Jan) 2024	Report in Hand
5.2	Quarterly Monitoring & Evaluation Report (QM&ER)		QM&ER Oct-Dec 2023
5.3	Special Reports (Various)		Will be submitted shortly
			In process

## CHAPTER-1: PROJECT INTRODUCTION

### 1.1 PROJECT PROFILE

This section covers the following detail of the project:

<b>Project Name:</b>	National Program for Improvement of Watercourses in Pakistan Phase-II (NPIWC-II)
<b>Project Areas:</b>	Punjab, Khyber Pakhtunkhwa, Balochistan, Gilgit Baltistan, Azad Jammu & Kashmir, and Islamabad Capital Territory (ICT)
<b>Sponsoring Agency</b>	Ministry of National Food Security & Research
<b>Executing Agencies (EAs):</b>	<p>Following are different EAs:</p> <p>Federal Project Management Unit (FPMU),</p> <ul style="list-style-type: none"> <li>i. DGA OFWM Punjab</li> <li>ii. DG OFWM KP</li> <li>iii. DGA OFWM Baluchistan</li> <li>iv. Director Irrigation and Small Dams, AJ&amp;K</li> <li>v. Director WM, GB</li> <li>vi. Director Agriculture Extension Services (AES) ICT</li> </ul>
<b>Project Period:</b>	5 Year (2019-2024)
<b>Total Project Cost:</b>	Rs. 154,542.355 million (Umbrella PC-1, including Sindh)
<b>ME&amp;IE Consultancy Period:</b>	4 years
<b>ME&amp;IE Consultant:</b>	JV of G3 Engineering Consultants (Pvt.) Ltd., EASE PAK Engineering services (Pvt.) Ltd., Centre for Social Research and Development (CSR), ADA Consultants Inc. Canada, and S&S Associates.
<b>ME&amp;IE Consultant Mobilized:</b>	November 07, 2020

### 1.2 PROJECT DESCRIPTION

Project description includes followings i.e., the project development objectives, project objectives, project benefits, project components, etc.

#### 1.2.1 Project Development Objectives

The Project Development Objectives (PDOs) are to improve irrigation water management at tertiary and field levels in Pakistan.

#### 1.2.2 Project Objectives – General & Quantitative

Following is the project general and quantitative:

##### 1) General Objectives:

The Project aims to replicate the success achieved during the NPIWC Phase-I and further improve the findings of the Project Impact Evaluation Study (PIES). The broad objectives of the project are as under:

- i) Social mobilization through capacity building of WUAs/ FOs,
- ii) Minimization of conveyance and field application losses,
- iii) Reduction in Water Logging and salinity,
- iv) Equity in water distribution,
- v) Reduction in water disputes/thefts/litigation,
- vi) Motivation/participation of farmers,
- vii) Poverty reduction through employment generation, and
- viii) Increase in crops yield/self-sufficiency in food.

##### 2) Quantitative Objectives' Outputs and Impacts:

The quantitative objectives' outputs and impacts of the Project are as under:

##### Project outputs

- i) Mobilization through capacity building of Water Users Associations/Farmers Organizations in improved water management techniques and their registration under On-Farm Water Management and Water User Associations Ordinance [Act] 1981 and organization of 47,278 WUAs.
- ii) Reconstruction/renovation and remodeling of 47,278 watercourses, involving complete earthen renovation, partial lining of critical reaches (50% of the total watercourse length as decided in the high-level meeting), and installation of water control structures. It is expected to save around 5.82 MAF per annum (approx. saving of 123 acre-feet (AF) per watercourse per annum).
- iii) Construction of 14,932 water storage tanks with 60% subsidy through cost sharing

arrangements with the expectation to save about 50% irrigation water for wheat and about 68% of irrigation water for paddy crops.

#### **Project impacts**

- i) Reduction in Water Logging and salinity in project areas to the extent of 10%.
- ii) Cropping intensity is expected to increase by 5-20%.
- iii) Crop's yield is estimated to increase by 10-15%.
- iv) Equity in water distribution increased by about 30%.
- v) Reduction in water disputes/thefts and litigation amongst the Farmers over water distribution by about 80%.
- vi) Help poverty reduction through generation of employment.
- vii) Self-sufficiency in food through utilization of water saved including edible oil seed production.

#### **Project indirect benefits to industry/economic activities**

- i) Cement industry, bricks Killen, Precast Structures Industry and other related industries' production will pick up.

#### **Awareness support to farmers**

- i) Motivating farmers through an awareness campaign for watercourse improvement.
- ii) Providing technical material to farmers for optimal utilization of water resources in the shape of technical manual and operational guidelines.

#### **1.2.3 Project Beneficiaries**

Majority of the direct beneficiaries of the project constitute the number of farmers (owners as well as tenants) growing crops and orchards on the watercourses improved under NPIWC-II. Assuming 35 farmers on each watercourse, the total number of the farmers benefiting from the activity comes to 1.655 million. The same number will be benefited due to Water Users' Associations (WUAs) in terms of cooperative management of irrigation water. Moreover, 14,932 farmers will be directly benefited from Water Storage Tanks and 11,620 as recipients of Laser Land Leveling Units. Thus, total gross direct beneficiaries are expected to be around 3.336 million households. However, net beneficiaries are expected to be 1.668 million.

Taking family size at five, total net population benefitting is expected to be 8.34 million people.

#### **1.2.4 Project Components**

The NPIWC-II project comprises four components.

##### **C1: ORGANIZATION OF WATER USERS ASSOCIATIONS:**

Establishment/ reactivation of Water Users Associations (WUAs) through community driven implementation approach. Following are the scope of WUAs:

- i) Provide right of way for constructing watercourse,
- ii) Arrange skilled and unskilled labour required for reconstruction / maintenance of earthen water channel, installation of water control structures, and lining of critical reaches,
- iii) Procure construction materials for carrying out civil works,
- iv) Settle matters of disputes amongst the water users in respect of channel alignment, fixation of Naccas, distribution of work, etc.
- v) Make alternate arrangements for conveyance of water during execution of improvement works,
- vi) Carry out civil works in accordance with standards and specifications under the supervision of OFWM field staff,
- vii) Regularly undertake O&M of improved watercourses after its construction.

##### **C2: WATERCOURSE IMPROVEMENTS:**

47,278 Watercourses are planned to be improved /reconstructed and lined adopting the following criteria:

- i) New watercourses that are not yet improved under earlier programs / projects,
- ii) Reconstruction of more than 20 years old watercourses that outlived their economic / useful life,
- iii) Additional lining up to 50% of already improved watercourses.

##### **C3: CONSTRUCTION OF WATER STORAGE TANKS:**

The project will construct 14,932 Water Storage Tanks (WSTs). Following will be the benefits of WSTs:

- i) Store water during the rainy season and times

- of no use in the commands of perennial / non-perennial canals for subsequent irrigations at the critical crop growth stages,
- ii) Provide flexibility for storage of plentiful canal and rainfall runoff water for its more expedient use subsequently,
- iii) Collect, store and filter water from:
  - Small Dams, springs, streams, mullahs etc.
  - Rainfall runoff over agricultural catchment during rainy season
  - Tube-wells and dug wells of low flows
  - Tail-waters from agricultural fields
- iv) Regulate the flows so that it can be used efficiently when needed at large flow rates.

#### C4: PROVISION OF LASER LAND LEVELING UNITS:

Provision of 11,610 Laser Land Leveling (LLL) units to the farmers; the component is strengthening LLL services in the country through provision of LLL Units to farmers / service providers on 50% subsidized rates.

#### 1.2.5 Project Targets

Project aims at achieving the targets for 5 years starting from the year 2019-20 to 2023-24, presented in **Figure-1.1**. Whereas the targets for each Province / Zone (excluding Sindh) are presented in **Figure-1.2**.

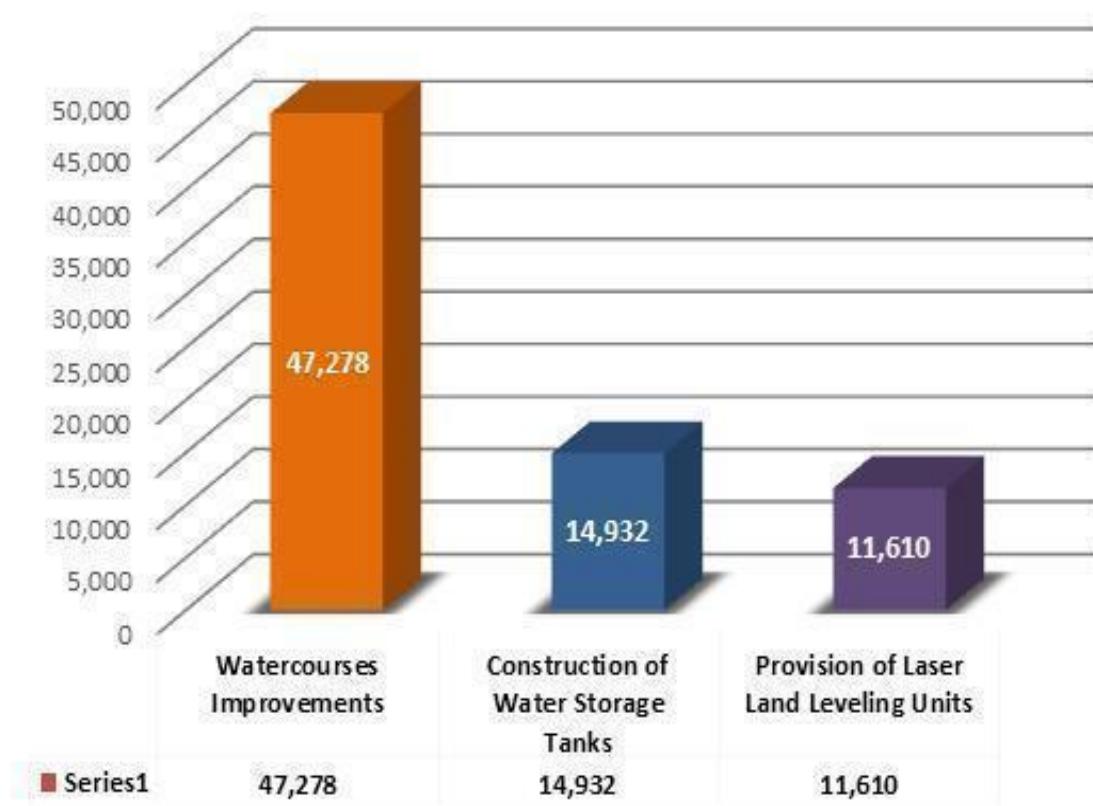

Figure 1.1: NPIWC-II Project WCs, WSTs, and LLL Targets in Pakistan

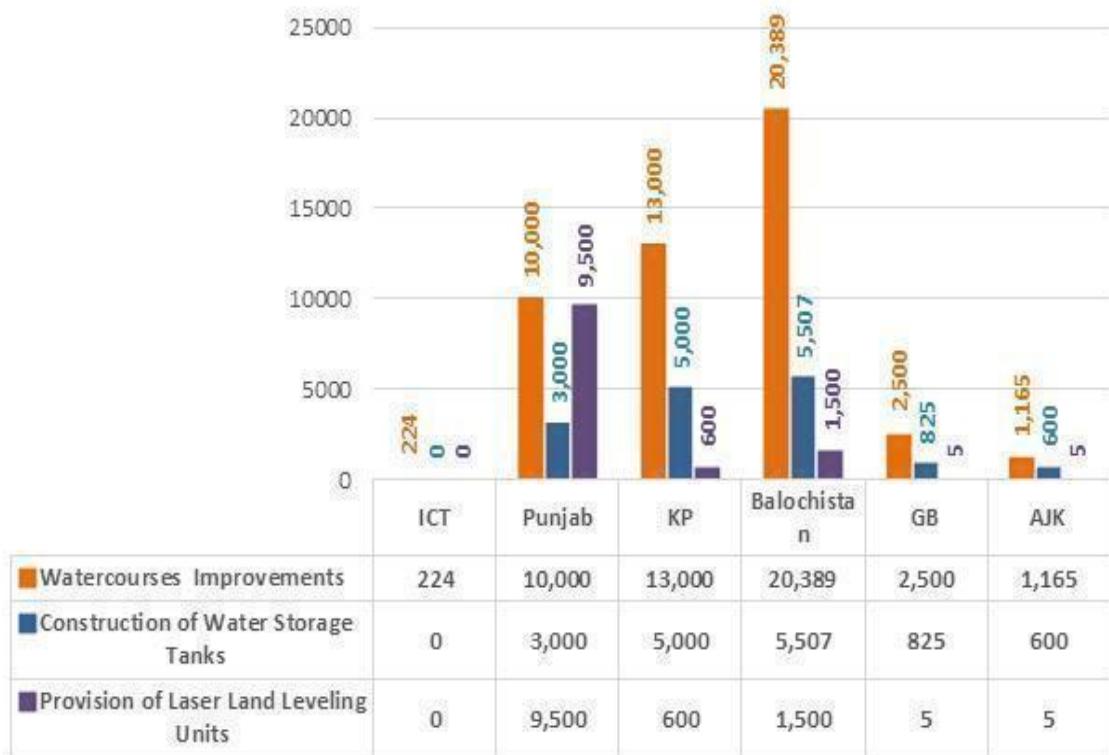

Figure 1 2: Zone-Wise WCs Improvement, WSTs, and LLL Target

## CHAPTER 2: SCOPE AND SERVICES OF ME&IE CONSULTANTS

The ME&IE Consultants' services are designed to be provided through a multi-disciplinary team of qualified professionals. All the firms in the joint venture have rich experience in the field of monitoring and evaluations (M&E). The team deputed for this task in the project, comprises highly qualified professionals having long practical experience of such projects earlier launched in Pakistan. The consultants are developing a "State-of-the-Art Management Information System" (MIS) with "Geographical Information System" (GIS) focused for NPIWC-II to monitor progress on project interventions and to carry out an effective monitoring process. The MIS is helping decision makers to make informed decisions.

### 2.1 OBJECTIVES OF CONSULTING SERVICES

The objective of ME&IE Consultant's services is to carry out M&E of project impacts to ensure achievement of project development objectives.

### 2.2 SCOPE OF CONSULTING SERVICES

The ME&IE Consultants are responsible for monitoring, evaluation and impact evaluation (ME&IE), and in this context are carrying out the following activities:

- i. Undertake baseline, midline and end line surveys for the project activities / interventions in all the project areas,
- ii. Develop monitoring strategy, framework and Result-Based Monitoring (RBM) indicators,
- iii. Preparation of monthly, quarterly and annual monitoring, evaluation and validation reports of the project activities,
- iv. Assessing the water saving per annum on watercourses, water storage tanks and field levels as well as aggregate due to the project interventions,
- v. Assessing the improvement in water availability due to the provision of conveyance system,
- vi. Assessing the economic benefits to the agriculture in terms of changes in yields, irrigated area, cropping pattern, cropping intensity, farm income and employment in command area of watercourses and water storage tanks,
- vii. Assessing the extent of community mobilization, financial and administrative sustainability of water users' associations and

- ensuring the maintenance of watercourses, water storage tanks and laser land Levelers,
- viii. Economic impact of project interventions,
- ix. Carry out the impact evaluation of the project intervention on the economy and stakeholders,
- x. Develop a website containing information on facilities and services, applications, procedures, watercourses, water storage tanks and laser Levelers database, etc. (while the project's IT staff will maintain the website),
- xi. Provide technical support for the development of a custom-designed mobile application (Android Based) to capture on-site project progress and geo-tagged photos. It should be synchronized with the central MIS/GIS database and application for instant reporting and feedback to the management.

The said requirement is based on the following functional features:

- Development of a GIS database with all spatial layers related to activities being undertaken under the project
- Give technical assistance for up-dation/up-gradation of water management GIS database.
- Development of web-based GIS application as a dashboard interface for comprehensive representation of all spatial and tabular information: custom designed web GIS application be developed for large LED screens, should be self-operative and represent project data on multiple layouts of application interface.
- Development of a MIS application as an integral part of web GIS to maintain information on facilities and services, applications, procedures, watercourses database, etc.
- Development of a custom designed mobile application (Android) to capture on-site project progress, geo-tagged photos; should be synchronized with the central MIS/GIS database and application for instant reporting and feedback to the management.
- Application should generate custom designed reports and analysis as per user-defined requirements.
- Application should generate alerts (SMS, email, web-notifications) to the user on the non-conformance of project's key indicators; the application should have the provision to custom define alerts levels and desired notifications.

### 2.3 MONITORING STRATEGY OF CONSULTANTS

The monitoring strategy planned to be followed by ME&IE Consultants is briefly described in **Table-2.2**. However, detailed methodology and procedures to

carry out the ME&IE of the project interventions were explained in Chapter 6 of Inception Report.

**Table 2.2: Monitoring Strategy for ME&IE Activities**

Sr. No.	Monitoring Activity	ME&IE Team Responsible	Monitoring Strategy
1	Baseline, midline and Endline surveys	Team Leader, Socio-Economic Expert, Agricultural Economist and Deputy Team Leader of the respective Province/Unit.	<ul style="list-style-type: none"> <li>Baseline and impact surveys will be carried out on a sample basis.</li> <li>Data will be collected by field teams on pre-designed data collection tools through an android application on TABs.</li> <li>Baseline and impact surveys will be carried out in phases as target watercourses are not pre-selected.</li> <li>Baseline will be carried out before launching of the interventions and the impact one year (two crop seasons) after the completion of the intervention.</li> <li>The midterm study will review the project progress in the middle of the project implementation.</li> <li>The end line study will assess the impact of the project interventions.</li> </ul>
2	Reporting	All core team members	<p>Following periodic reports will be prepared and submitted:</p> <ul style="list-style-type: none"> <li>Draft Inception Report 45 days after the agreement,</li> <li>Final Inception Report one week after the issuance of comments by the client on the draft,</li> <li>Monthly Monitoring Report on 10th of following month,</li> <li>Quarterly Monitoring Report on 10th of the first month of the following quarter,</li> <li>Annual Monitoring and Evaluation Report during first month of the following year,</li> <li>Baseline Survey Reports (in three phases),</li> <li>First Phase Baseline Survey report will be submitted within the four months after the start of the assignment i.e., Submission of final inception report/Beginning of field activities.</li> <li>Impact Survey Reports (in phases) – two months after the data collection completion for the impact phase,</li> <li>Midline report in the middle of the assignment,</li> <li>Endline Report at the end of end line Survey,</li> <li>Draft Assignment Completion Report at completion of the physical works,</li> <li>Final Assignment Completion Report at completion of works and financial transactions. It will also include the full economic benefit of the project (NPIWC-II) on agriculture sector as well as on the GDP of Pakistan,</li> <li>Special Reports, as and when asked by the client.</li> </ul>
3	Water saving assessment	Irrigation Agronomist, Field Team/ Engineers	<p><b>Water Saving on Watercourses:</b></p> <ul style="list-style-type: none"> <li>Water flow will be measured on sample watercourses selected for the baseline and impact surveys</li> <li>The flow will be measured at four points of the selected watercourses: close to water outlet, head reach, middle reach and tail reach.</li> <li>The measurements will be done through current meters.</li> </ul>

Sr. No.	Monitoring Activity	ME&IE Team Responsible	Monitoring Strategy
			<ul style="list-style-type: none"> <li>Based on water savings on sample watercourses, total water savings will be estimated for all project watercourses. The savings will be reported per watercourse, per annum and aggregate for the project in LPS and Acre feet.</li> </ul>
			<p><b>Water Savings on WSTs</b></p> <ul style="list-style-type: none"> <li>Since WSTs will be filled and emptied on a continuous basis, the water savings will be assessed on the basis of water pumped from the tank to irrigate the fields.</li> <li>The assessment will be done either by readings on the pump gauge or periodically interviewing the farmer.</li> <li>Based on water savings on sample WSTs, total water savings will be estimated for all project WSTs. The savings will be reported per WST, per annum and aggregate for the project in LPS and in Acre feet.</li> </ul> <p><b>Water savings due to Laser Land Leveling</b></p> <ul style="list-style-type: none"> <li>Water savings at field level will be assessed through farmers' interviews.</li> <li>The impact survey form will include questions to be asked from the farmers who got their land leveled:             <ul style="list-style-type: none"> <li>In how much time an acre was irrigated before watercourse improvement and land leveling</li> <li>In how much time an acre is irrigated after watercourse improvement with land leveling</li> </ul> </li> <li>The difference will be water saving due to laser land leveling</li> </ul>
			Based on water savings on sample LLL units, total water savings will be estimated for all project LLL units. The savings will be reported per LLL unit, per annum and aggregate for the project in LPS and in Acre feet.
4	Community mobilization	Social and Gender Specialist and Socio-Economic Expert	<p>The extent of community mobilization will be assessed by investigating whether:</p> <ul style="list-style-type: none"> <li>WUAs is functional</li> <li>Holds regular meetings and keep record of them</li> <li>Makes decisions democratically</li> <li>The participation in the organization is voluntary</li> <li>It is financially and administratively sustainable</li> <li>Takes steps and ensures maintenance of watercourses, WSTs and laser land leveler</li> </ul>
5	Economic benefits assessment for agriculture	Team Leader, Socio-Economist and Agricultural Economist	<ul style="list-style-type: none"> <li>As indicated at serial No. 1, Agriculture data will be collected before (baseline) and after (impact) the watercourse improvement and WSTs construction.</li> <li>In both the surveys same forms will be used and same sampled farmers will be interviewed</li> <li>Data on variables such as crop yields, irrigated area, cropping pattern, cropping intensity, farm income and employment will be collected and analyzed</li> <li>The difference between before and after situations minus natural growth will be assumed as economic benefits to agriculture.</li> </ul>
6	Impact evaluation-on the economy	Team Leader, Agricultural Economist and	<ul style="list-style-type: none"> <li>The results of the baseline and impact surveys will be used to quantify impact on the economy</li> <li>Additional food produced due to the project will be</li> </ul>

Sr. No.	Monitoring Activity	ME&IE Team Responsible	Monitoring Strategy
		Socio-Economic Expert	<p>estimated. It is benefitted towards food security</p> <ul style="list-style-type: none"> <li>Project costs and benefits will be compared in economic and financial terms to carry out economic and financial analysis.</li> <li>Parameters like IRR, NPV and BCR will be estimated.</li> </ul>
7	Impact evaluation-on the stakeholders	Team Leader, Agricultural Economist and Socio-Economic Expert	Analysis as in serial 6 will be carried out with reference to various stakeholders, like community, government, farmers, etc.
8	Spot checking	Team Leader, Deputy Team Leaders & Field teams/Engineers	During the field visits for WUAs baselines impacts of Watercourses, WSTs and laser land leveling units, the interventions will be spot checked for quality of construction, material, functioning and beneficiaries' satisfaction, etc.
9	Process monitoring	Field Teams of Agriculture Deptt., Project Consultants, ME&IE Consultants & ICT/Technology Specialist	<ul style="list-style-type: none"> <li>The processed data for all the interventions will be fed to the MIS/GIS database.</li> <li>Client's field staff and field teams of consultants will furnish data of their activities.</li> <li>The ME&amp;IE will assist in developing mobile application for this purpose</li> <li>From this data reports will be generated for process monitoring</li> <li>All interventions will be fully (100%) covered.</li> </ul>
10	Project website and MIS/GIS dashboard development	ICT / Technology Specialist (Including all other core team staff will also coordinate in completing data for the MIS/GIS	<ul style="list-style-type: none"> <li>The State-of-the-art MIS / Progress Monitoring Model will be developed for NPIWC-II.</li> <li>Customized forms will be developed to collect data from the implementing teams on-site for progress monitoring</li> <li>These forms will be made available to the teams on smart phones through an android application</li> <li>The teams will be adequately trained to use the application</li> <li>Data on physical and financial stages with dates will be fed to the system for process monitoring</li> <li>GIS coordinates for watercourses, WSTs, laser units (if available) and WUAs offices will be uploaded to the system and could be viewed / reached by the management online</li> <li>The system will be maintained on GOOGLE server so that it is accessible by the management from anywhere in Pakistan and abroad</li> <li>Custom reports will be possible as the user demands / desires</li> <li>The results could be displayed on small as well as large screens.</li> </ul>
11	Development of Android based application	ICT / Technology Specialist	All the data collection forms / tools will be executed through customized developed Android based applications accessible with smart phones / TABs.

## 2.4 FRAMEWORK AND RESULTS-BASED MONITORING (RBM) INDICATORS

The framework and Results-Based Monitoring (RBM) Indicators are identified in Table-2.2 of Inception Report. The indicators are further being enhanced and refined in consultation with the client as well as the stakeholders.

The improvement of indicators is a continuous process throughout the project implementation in the light of real and on ground situations.

## CHAPTER 3: CONSULTANTS' ACTIVITIES DURING THE REPORTING MONTH

As a regular part of the ME&IE assignment, routine field visits & monitoring of project interventions in the field remained continued by ME&IE consultants. The Consultants also carried out different in-house activities related to ME&IE assignment:

### 3.1 SUBMISSION OF MONTHLY MONITORING REPORT (MMR)

As per contractual obligation, the consultants have submitted thirty sixth MMR (December 2023). While the thirty eighth MMR (the Report in hand) for the month of January 2024 (1<sup>st</sup> January 2024 to 31<sup>st</sup> January 2024) is being submitted.

Monthly Monitoring Report (MMR) explains the understanding towards all activities to be carried out as per TORs of ME&IE consultants' assignment and their completion within stipulated time frame. The activities include but are not limited to pre-field/ in-house activities, field monitoring activities i.e., monitoring of project interventions, ICT assignments including monitoring of online data collection in the field, and development / improvement of project dashboard and website etc. Consultants of ICT Team also remained in contact with Clients' officials for entering data in Dashboard and provided assistance when and where was required by client. All the activities of the current month were in compliance with the quarterly work plan of the consultants. Hence, the main objective of the Monthly Monitoring Report is to update the Client about the activities carried out by the ME&IE Consultants during the reporting month. Reporting is an integral part of the monitoring and evaluation framework.

### 3.2 ACTIVITIES ICT UNIT – JANUARY 2024

The report presented below provides a brief overview of the significant actions addressed by the ICT-UNIT's ME&IE consultants and witnessed updated status during the monitoring period of 1st through 31st January 2024.

- Scheduled regular and periodic meetings were held with Coordinating/Client, cooperating, and internal technical personnel, as well as the Administration and Finance departments of the Zonal and National Offices to ensure timely completion of targeted deliverables.

- Submitted the QMR for the period of Oct to Dec-2023 and MMR for Dec-2023 after editing, verifying, and processing through the respective stakeholders.
- Admin and Financial liabilities were supervised by the Team Leader and Deputy Team Leader of the ICT-Unit as well as National Office at Islamabad.

The National Project Coordinator of the NPIWC-II project constituted a committee consisted the components including FPMU, NWMC, FWMC, NESPAK and G3 JV ME &IE consultants to revisit the PC-1 of the ongoing project in view of given resources vis-à-vis scope of the project in the light of its achievements and the left over agenda, as well as the bottlenecks to meet the targeted goal of the project. Thus, in the light of above information the PC-1 is supposed to be revised accordingly. In line, the PC-1 revision team has developed the following strategy to achieve its goals:

- a) To accelerate the process of revision of the revised PC-I NPIWC-II for a further period of two years. In this regard, the main responsibility of the committee to keep close coordination with the provincial set up to expedite the respective correspondence and exchange of information.
- b) The committee has asked the provinces to provide information on Actual Expenditure of 5 Years i.e., 2019-2024 (4.5 Years Actual+ 6 Months projected Expenditure), and next two years of the project on approved interventions in the initial PC-1.
- c) The province wise approved revised PC-I would be obtained with the approved minutes of PDWP and considered to ensure speedy disposal of new amended/revised PC-I within overall approved cost of earlier PC-I.
- d) Till today, we have received revised PC 1 from KPK, Sindh, Gilgit, Balochistan and Punjab but still debate is going on for its improvement in time. ICT PC 1 is still awaited. After the election the AJK PC-1 will be discussed.

#### 3.2.1 Overall Progress:

The ME&IE consultants, Islamabad Unit had completed the Baseline- I &II, Midline Impact survey while Baseline-III & Endline survey as well as the ongoing and routine regular monitoring and spot-checking activities are in progress in collaboration with cooperating field operational departments including OFWM, Water Users Associations and beneficiaries of the targeted schemes (i.e., WC, WST).

From inception to date, the ME&IE Consultants ICT field team conducted baseline vis-a' vis impact surveys of **43** watercourses in AJK & ICT as well as baseline vis-a'-vis impact surveys of more than **18** water storage tanks in AJK and **19** in Potohar region of Punjab Zone. The details about those schemes have already been presented in the tabular and graphic forms in the previous MMRs.

### 3.2.2 Quarterly Work and Visit Plan – Islamabad Unit

The ME&IE consultant's ICT & AJK Units have revised the tentative visit schedule for conducting the remaining field visits of Baseline-III & endline surveys, regular monitoring, spot checking and impact surveys/case studies. These surveys will focus on sampled households and programs associated with WC, WST, and Laser Land Levelers. The quarterly tentative work plan (Feb to April 2024) is given in Tables 3.1.

**Table 3.1: Tentative Field Survey Schedule for the Sampled Schemes during the Current Quarter**

### 3.2.3 Meetings / Coordination ICT-Zone

The main visiting objectives of the NPC of the NPIWC-II project was to meet the professionals and apprise the ongoing activities of the project. Moreover, an audit team from the office of the NPC accompanied with him to conduct the financial and logistic audit of the National and ICT-Unit offices. A number of the official meetings managed from time to time under the supervision of TL and DTL at

different levels from lower to High-ups of the OFWM department in ICT and Rawalpindi regions regarding data sharing coordination as well as up to date progress status about the interventions and its effectiveness in terms of opportunities and limitations through employing and looking at the results of the impact and monitoring tools in vogue under the scope of this project. Bottlenecks /issues regarding coordination with OFWM staff were also came under discussion. The NPC of this project was

kind enough to look into the issues and opportunities raised and tried his best to facilitate the effective coordination between M&E consultants and the corresponding staff of different allied Departments.

The issues and bottlenecks faced by the Field Team with regards to field survey also came under discussion. The NPC showed satisfaction on overall performance of Field Officers & ME consultants and reiterated on timely submission of targeted deliverables. He further scored to give instructions to the OFWM department to enhance cooperation in this regard.

Date

<b>Participants</b>	
<ul style="list-style-type: none"> <li>• Mr. Mohammad Asif kakar NPC, Ministry of Food Security and Research, Islamabad.</li> <li>• Mr. Saiful Allah Ijaz Director G3 JV.</li> <li>• Dr. Usman Mustafa, Team leader, NPIWC-II, Project</li> <li>• Dr. Ikram Saeed, DTL, ICT-Unit, National Office, Islamabad.</li> <li>• Mr. Rasheed Ahmed Zehri , FTI, ICT- Unit.</li> </ul>	
<b>Meeting Agenda/Points discussed:</b>	
<ul style="list-style-type: none"> <li>• Apprised the on-going activities of the NPIWC-II Project.</li> <li>• Auditing the financial and logistics records with the reconciliation of physical verification of the items/ tools in the possession of the National/ ICT-Unit Office, Islamabad, etc.</li> </ul>	
	
<b>ME&amp;IE Consultants and Audit Team with NPC, Ministry of Food Security and Research</b>	

#### Some of the Challenges & Mitigation Measures Adopted Discussed as under:

- **Some of the Constraints are as Follows:**

Non provision of updated list of beneficiaries for the on-going and in-process schemes of the targeted

interventions (to determine the sample size, the need of sampling frame is prerequisite).

#### Key Proposals to Manage the suggested Field as well as HQs. Plans:

- a. Availability of sampling frame list to work out exact sample size about the targeted interventions for the schemes including WCs and WSTs as well as LLLs from the respective stakeholders.
- b. First aid box, and basic necessities like, umbrella, water with cooler must be provided to the field teams to combat emergency situation,
- c. Tablet may be provided to the Field team members for facilitating online data transfer.

#### 3.3 ACTIVITIES PUNJAB ZONE – JANUARY 2024

During the month of January 2024 baseline & endline field survey activity was carried out by the ME&IE consultants field teams. The field teams also coordinated with OFWM Field Staff and other stakeholders in the project. The consultants also performed indoor following activities pertained to

- i. **Pre-Field Activities-** From time to time, the field team members and the Deputy Team Leader discussed the Consultants' designing strategy and condition of the ongoing field surveys..
- ii. **Field Activities:** The Punjab field teams remained busy with baseline and endline impact field surveys as well as monitoring and spot checking of Watercourses and Water storage tanks in following districts.

District	WC	WST	PLL
Bahawalnagar	12	0	0
Bahawalpur	7	0	0
Bhakkar	8	0	0
Khanewal	0	1	0
Khushab	8	1	0
Layyah	4	0	0
Mianwali	4	1	0
<b>Grand Total</b>	<b>43</b>	<b>3</b>	<b>0</b>

From inception to the reporting month, the ME&IE Consultants' Punjab field team conducted baseline vis-a-vis impact surveys on a total of **246** watercourses. In addition, they completed baseline and impact surveys for **77** water storage tanks (**58** by Punjab field team and **19** of Potohar Region by ICT Field team) and conducted impact assessments on **148** PLL interventions.

- iii. Post Field Activities- These activities were related to the Review/validation of the accumulated available data/field data viz Water User Associations Improvement of water Courses and Construction of Water Storage Tank/Ponds Intervention Such the Data Collected earlier Were validated for PMIS Dash Board.
- iv. Time to time Meetings were held with Stakeholders / Beneficiaries. Telephonic and other means of communication were also used, just for sharing the data.
- v. Internal meetings were held as a regular feature during the month. In such meetings between DTL and Field team day to day issues were discussed data collection instrument improvement were also viewed and discussed in details

### 3.4 ACTIVITIES KP ZONE – JANUARY 2024

The ME/IE Consultants are committed to achieving the project objectives well in time. So It is important to keep cordial relations with all the stakeholders including the OFWM Department, beneficiaries of the NPIWC-II, (those farmers who availed water course/water storage tanks construction or improvement facility of the NPIWC-II project), and other relevant departments engaged in agricultural development activities. What follows next is the activities performed by the KP zonal office staff in Peshawar during October 2023.

Major activities of ME&IE Consultants, KP Zone include:

- ❖ Meetings (Formal and Informal)
- ❖ Monitoring / Baseline & Endline Impact field visits.
- ❖ Monitoring of data
- ❖ Verification of WC and WSTs through Google Earth
- ❖ Writing of MMR of December 2023
- **Informal Meetings:** As a routine activity many meetings were held with OFWM Department's relevant officials when and where required to update ME/IE consultants' staff about the ongoing activities of the OFWM Department related to NPIWC-II project. These meetings/contacts were held both physically and telephonically for the collection of relevant information about undergoing schemes. Mostly these meetings were informal. As per the ME&IE discussions with the OFWM Department

official, it was found that schemes were mostly completed under the NPIW-II program. New schemes for the construction/improvement of water courses and water storage tanks will be initiated after the release of funds by the authorities.

- **Formal meetings:** Time to time formal meetings were held during January 2024.
- **Field visits:** The KP zone field teams remained busy with baseline and end-line impact field surveys as well as monitoring and spot checking of Watercourses and Water storage tanks in KP zone.
- **Monitoring of data:** Training has been imparted to the officials of the OFWM Department for data entry to the Dashboard. Now they are directly entering the data on the Android application. The ICT Manager KP zone strictly monitors data entries and makes necessary rectifications by guiding the concerned staff of the various districts of KP
- **Verification of WC and WSTs through Google Earth:** ME/IE consultants KP zone made verification of all watercourse, and water storage tank schemes coordinate through Google Earth and identified incorrect coordinates.
- **Writing of MMR of November 2023:** Drafted MMR of KP Zone for December 2023.

#### 3.4.1 Description of Progress:

During January 2024 the OFWM Department staff extended all possible help to the ME/IE consultants. Close contacts through meetings/Telephone calls with different cadre officials of OFWM department were held regarding the ongoing activities under the NPIW-II during the current reporting month. The purpose of these meetings was to collect the GPS location-based data for dashboard completion and visits of teams to different destinations for baseline surveys. The OFWM directorate extended their usual support and provided all the relevant information. The ME&IE Consultants, KP made frequent visits to the directorate of OFWM for acquainting themselves with the on-going schemes under the NPIW-II by the concerned department. During these meetings general discussions were also made about the perceptions of the OFWM Department officials and of the farmers about these schemes. As per the OFWM Departments officials

most of the farmers were satisfied with the benefits of these schemes in terms of increase of crop productivity, cropping intensities and time saving. Apart from the meetings with OFWM Department officials, the ME/IE Consultants were called by the Provincial PMU one each on October 25, 2023.

#### FIELD SURVEYS:

Monitoring / Spot-check, Baseline and Impact surveys pertain to various interventions of the project viz improvement of watercourses, water user associations, construction of water storage tanks, and laser land levelers surveys are carried out from time to time as a part of regular activity of ME&IE Consultants. During the period under reporting the KP zone field teams remained busy with baseline and end-line impact field surveys as well as monitoring and spot checking of Watercourses and Water storage tanks in following districts of KP zone.

District	WC	WST	PLL
Lower Dir	4	0	0
Lower Kohistan	1	0	0
Malakand	0	1	0
Shangla	3	0	0
Swat	4	4	0
Torghar	1	0	0
Upper Kohistan	1	1	0
Upper Mohmand	1	1	0
<b>Grand Total</b>	<b>15</b>	<b>7</b>	<b>0</b>

From inception to date the KP field team of ME&IE Consultants conducted baseline vis-a'-vis impact surveys of **205** watercourses in KP and **40** in GB. Moreover, the consultants had completed baseline vis-a-vis impact surveys of **79** water storage tanks in KP and **15** in GB. Impact assessment field visits of **05** PLL interventions were also carried out in KP.

**Data Entry and GPS validation:** During November 2023, KP field Teams entered and validated the GPS locations for hundreds of schemes of KP province. The activity was distributed among different team members with help from the ICT team of KP. The OFWM directorate extended their usual support and provided all the relevant information.

#### 3.4.2 Capacity Building of OFWM Staff on Android Application

The ICT team of the ME/IE consultants' have trained the officials of OFWM in Southern, Central and Northern zones for entering data directly to the Dashboard through android applications. Now they

are able to enter the data directly to the dashboard from their offices. However, some time when they were stuck somewhere in this exercise, the ME/IE Consultants continuous support was provided to OFWM officials on telephone for any issue while operating the android system and/or data collection process. In this regard the ICT team always paid visits to the Directorate of OFWM KP and assessed the understanding of field staff for utilization of android application to collect the data of GPS coordinates. It was found that there was some negligence from staff of OFWM in the collection of GPS coordinates, which was planned to overcome.

The gaps were filled in the understanding of the field teams of OFWM and ensured that they may follow the principles of the data collection in near future for better data gathering.

#### 3.4.3 Limitations/Hurdles of ME/IE Consultants facing in achieving the required Targets

All the staff members are very devoted and hard-worker towards fulfilling their responsibilities. Similarly, the OFWM staff is extending all possible help and cooperation towards the ME/IE Consultant KP Zone in providing the required information. Overall, ME&IE Consultants' progress has been a little slow in achieving their goals due to client-side financial constraints.

#### 3.4.4 Key Challenges

##### Some Limitations:

- Due to overall economic situation & liquidity crunches prevailing in the country currently, funds release delays were evident leading to slowing down progress of overall project.

#### 3.4.5 Recommendations:

In order to meet the targets well in time following recommendation are forwarded.

- Exposure of Dashboard with its broader perspective and application may present amongst the relevant authorities for its importance and further release of funds for the project activities.
- First aid box, basic necessities (umbrella) must be provided to field team in order to meet any emergency situation.

#### 3.4.6 Quarterly Work Plan – KP Zone

The ME&IE Consultants, KP is committed to accomplish all deliverables on due dates.

### 3.5 ACTIVITIES DONE BY BALOCHISTAN ZONE – JANUARY 2024

#### 3.5.1 Updated Progress of ME&IE Consultants – Balochistan

The ME&IE Consultants, Balochistan, have monitored **17** sites during the pre-testing of Monitoring Tools in different months. A total of **13** sites were monitored during executive visits with high officials. The ME&IE Consultants, Balochistan have conducted three baseline surveys, the first was conducted in 2021, the second was conducted in 2022 and the third was conducted in 2023-24. A total of **320** sites were visited during the baseline surveys i.e., **180** Watercourses and **140** Water Storage Tanks. The ME&IEC, field teams visited **07**

sites of PLL out of 34 total sites; the percentage of monitored sites is 20%. The Impact Assessment Survey was conducted in the 2022-23 and 2024 in which **320** sites (**180** Watercourses and **140** Water Storage Tanks) have been visited so far. Regular monitoring/spot-checking is another important activity of ME&IE Consultants in which more than **357** sites of different districts have been visited/monitored till the reporting month. In regular monitoring, ME&IE Consultants monitored ongoing / completed sites covering till date. The district wise updated status of the total activities done is given in the table below:

Table-3.2 District-wise Summary of M&E Consultants Field visits till January 2024

Sr. #	District	Baseline Survey		Impact Assessment Survey		Impact Survey (LLL)

### 3.5.3 Updated Status of Dashboard Balochistan.

The DTL, Balochistan zone has diligently undertaken several visits to the DG, OFWM Office, and these efforts have attained positive results, with the OFWM staff responding positively and cooperatively.

Furthermore, the Office of Water and Flood Management (OFWM) staff has been extremely supportive, demonstrating a commendable level of responsiveness. Their cooperation has been instrumental in providing the necessary data, covering the fiscal year 2020-21 comprehensively.

This significant data forward in achieving our objectives for the Dashboard of Balochistan.

### 3.6 SUMMARY OF SOCIAL & GENDER ACTIVITIES BALOCHISTAN ZONE – JANUARY 2024

The report presented below provides a brief overview of the significant actions addressed by the social and Gender team during the month of January 2024.

Social and Gender specialist developed a draft case study on Killi Shamozai of Quetta, Balochistan.

The gender team was also working on documents pertaining to gender.

Held frequent meetings on need-based basis, to monitor progress, plan, and strategize to begin the Project's targeted activities.

The Social & Gender team's main activities for this month included the following:

1. The S&G national Expert and provisional S&G specialist Worked on Tentative quarter work plan for impact surveys and FGD visits for all zones i.e. AJK, ICT, Punjab, Balochistan and KPK.
2. Regular meeting with DTL, TL and Gender experts on Gender related activities & documents.
3. Frequent meetings on gender-related activities and documents with DTL, TL, and gender experts.
4. S&G specialist will attend 05 days' training course titled "Disaster Management Issues and strategies ". in the upcoming month, at NCRD Akhtar Hameed National Center for Rural Development.
5. Report writing on "Social and Gender impact Report"
6. A draft success study of Killi Shamozai Quetta is prepared and will be shared after finalization.

### 3.7 ICT TEAM ASSIGNMENTS

#### 3.7.1 Implementation of MIS Dashboard

The Dashboard has been implemented in Punjab, KP, Balochistan, AJK and ICT zones:

The progress of Interventions is live on the Dashboard application.

A total of **41** completed Watercourses data have been received and available live on Dashboard. (Detailed Summary attached as **Annex-R**)

### 3.7.2 On-Going Data Validation & Cleaning

Data submission is an ongoing process & will continue till the end of the project. Zonal Field Staff of AJK, KP, and Balochistan is continuously feeding data through customized Android Application provided & trained by the ICT team of ME&IE consultants.

However, The ICT team is continuously cleaning and validating the received data and communicating mistakes to the concerned Zonal DDs/ADs for correction.

## CHAPTER 4: QUARTERLY WORK PLAN- ACTIVITIES (JANUARY 2024 TO MARCH 2024)

The ME&IE Consultants' activities initiating during the 1<sup>st</sup> Quarter of the year 2024 (1<sup>st</sup> January 2024 to 31<sup>st</sup> March 2024) are listed below. A tentative Work Plan for the 1<sup>st</sup> Quarter of the year 2024 (1<sup>st</sup> January 2024 to 31<sup>st</sup> March 2024) showing time span detail is given as **Annex-A**.

### 4.1 PRE-FIELD-ACTIVITIES

- i. Refresher Training of Field Staff for Baseline & Endline Impact Survey.

### 4.2 FIELD ACTIVITIES

- i. Regular Monitoring of Interventions in the field
- ii. Data collection of the interventions in the field
- iii. Baseline and Endline Impact survey Field visits
- iv. Online data entry in android-based application

### 4.3 ICT ASSIGNMENT

- i. Development / Improvement of website of NPIWC-II
- ii. Monitoring online data collection and Data entry
- iii. Monitoring Android based Mobile Application under implementation by field staff.
- iv. Data collection of interventions in MIS/GIS database
- v. Capacity Building Trainings / Refresher of Departments
- vi. Data Cleaning.

### 4.4 COORDINATION

- i. Meetings of TL with NPC and OFWM Departments regarding Project Progress / Issues
- ii. Meeting of DTLs with respective DTL of P C & concerned OFWM Departments
- iii. ME&IE Consultants Internal Meetings

### 4.5 DELIVERABLES

- ii. Monthly Monitoring Reports
- iii. Quarterly Monitoring & Evaluation Report (QM&ER)

The detail of deliverables of ME&IE Consultants with the timelines is as under:

Document	Status
Draft Inception Report	Submitted
Final Inception Report	Submitted

Document	Status
Monthly Monitoring Report-First (DEC 2020-JAN 2021)	Submitted
Monthly Monitoring Report-Second (FEB 2021)	Submitted
Monthly Monitoring Report-Third (MAR 2021)	Submitted
Quarterly Monitoring & Evaluation Report-First (JAN-MAR 2021)	Submitted
Monthly Monitoring Report-Fourth (APR 2021)	Submitted
Monthly Monitoring Report-Fifth (MAY 2021)	Submitted
Monthly Monitoring Report-Sixth (JUNE 2021)	Submitted
Quarterly Monitoring & Evaluation Report-Second (APR-JUN 2021)	Submitted
Annual Monitoring & Evaluation Report (1 <sup>st</sup> )	Submitted
Monthly Monitoring Report-Seventh (JULY)	Submitted
Monthly Monitoring Report-Eighth (AUG 2021)	Submitted
Baseline Survey Report-I	Submitted
Monthly Monitoring Report-Ninth (SEPTEMBER 2021)	Submitted
Quarterly Monitoring & Evaluation Report-Third (JULY - SEPTEMBER 2021)	Submitted
Monthly Monitoring Report-Tenth (OCTOBER 2021)	Submitted
Monthly Monitoring Report-Eleventh (NOVEMBER 2021)	Submitted
Monthly Monitoring Report-Twelfth (DECEMBER 2021)	Submitted
Quarterly Monitoring & Evaluation Report-Fourth Quarter year 2021 (OCTOBER – DECEMBER 2021)	Submitted
Monthly Monitoring Report-Thirteenth (JANUARY 2022)	Submitted
Monthly Monitoring Report-Fourteenth (MARCH 2022)	Submitted
Monthly Monitoring Report-Fifteen (MARCH 2022)	Submitted
Quarterly Monitoring & Evaluation Report-First Quarter year 2022 (JANUARY – MARCH 2022)	Submitted
Monthly Monitoring Report-Sixteen (APRIL 2022)	Submitted
Monthly Monitoring Report-Seventeenth (MAY 2022)	Submitted
Monthly Monitoring Report- `Submitted	Submitted

Document	Status
Eighteenth (JUNE 2022)	
Quarterly Monitoring & Evaluation Report-2 <sup>nd</sup> Quarter year 2022 (APRIL – JUNE 2022)	Submitted
Annual Monitoring & Evaluation Report (2 <sup>nd</sup> ) Jul 2021-June 2022	Submitted
Monthly Monitoring Report-Nineteenth (JULY 2022)	Submitted
Monthly Monitoring Report-Twentieth (AUGUST 2022)	Submitted
Monthly Monitoring Report-Twenty First (SEPTEMBER 2022)	Submitted
Quarterly Monitoring & Evaluation Report-3 <sup>rd</sup> Quarter year 2022 (JUL – SEP 2022)	Submitted
Monthly Monitoring Report-Twenty Second (OCTOBER 2022)	Submitted
Monthly Monitoring Report-Twenty Third (NOVEMBER 2022)	Submitted
Monthly Monitoring Report-Twenty Fourth (DECEMBER 2022)	Submitted
Monthly Monitoring Report-Twenty Fifth (JANUARY 2023)	Submitted
Monthly Monitoring Report-Twenty Sixth (FEBRUARY 2023)	Submitted
Monthly Monitoring Report-Twenty Seventh (March 2023)	Submitted
Monthly Monitoring Report-Twenty-eighth (April 2023)	Submitted
Quarterly Monitoring & Evaluation Report-1 <sup>st</sup> Quarter year 2023 (JAN – MAR 2023)	Submitted
Monthly Monitoring Report-Twenty-Ninth (May 2023)	Submitted
Monthly Monitoring Report-Thirtieth (June 2023)	Submitted
Monthly Monitoring Report-Thirty First (July 2023)	Submitted
Monthly Monitoring Report-Thirty Second (August 2023)	Submitted
Monthly Monitoring Report-Thirty Third (September 2023)	Submitted
Quarterly Monitoring & Evaluation Report-1 <sup>st</sup> Quarter year 2023 (Jul – Sep 2023)	Submitted
Monthly Monitoring Report-Thirty Fourth (October 2023)	Submitted
Monthly Monitoring Report-Thirty Fifth (November 2023)	Submitted
Monthly Monitoring Report-Thirty Sixth (December 2023)	Submitted

Document	Status
Monthly Monitoring Report-Thirty Seventh (January 2024)	Report in hand
Baseline Survey Report -I	Submitted
Baseline Survey Report -II	Submitted
Baseline Survey Report-II (Updated version WC)	Submitted
Baseline Survey Report -II (Draft version of WSTs)	Submitted
Mid-Line Monitoring & Impact Evaluation Report	Submitted
Consolidated Baseline Survey Report (Phase-I&II)	Submitted
Baseline (Phase I&II) Consolidated Report	Submitted
<i>Mid-Term Monitoring and Impact Evaluation Report</i>	<i>Submitted</i>
Special Reports submitted:	
1) Monitoring Tools	
2) Survey Manual on MTs	
3) PAM	
4) Working Paper on Technology and Methodology for Implementation of Android Based Field Progress Data Collection and GIS Based Progress Monitoring Analytical Dashboard.	
5) Survey Methodology & Questionnaires for Baseline Survey Phase-II	
6) Baseline-Endline Manual Survey Manual	
7) Android Application PMIS Dashboard Manual	
8) Survey Manual on MTs (Updated)	

Deliverables/Reporting Requirements are placed at **Annex-D**.

#### 4.6 MATRIX OF RESPONSIBILITIES

The Matrix of Responsibilities is placed at **Annex-B**.

## CHAPTER 5: ISSUES / BOTTLENECKS

The ME&IE Consultants are continuously facing the following issues and constraints for timely instigating the activities:

- Due to non-availability of NWMC (NESPAK) deliverables/reports, ME&IE Consultants are facing problems to monitor & evaluate the working of NWMC. In this regard the cooperation and coordination of NWMCs as well as the relevant Directorates are required.
- Non availability of Technical Sanctions of the watercourses.
- Non-availability of complete up-to-date inventory / data of all interventions from the Client, Provincial Agricultural Departments (OFWM) & NWMCs (NESPAK) till to date.
- Irregularity in the fund releases is also one of the key difficulties in the completion of the required project assignments / tasks, on time.
- While reviewing Dashboard during our in-house exercise we have witnessed some stuck-up cases. Following are different levels/stages in term of days and area of jurisdiction:

<u>Days</u>	<u>Departments</u>
100 to 119	District
120 to 149	Division
150 to 164	NPC/DDPC

As some of the cases have crossed third level which is execution agency DG, therefore, you are hereby intimated for your personal intervention to sort out these stuck ups.

We have already pointed out Stuck-Up Cases of NPIWC II Watercourses through our office letter No. NPIWC-II / ME&IE / NOISD / 0623-0256 submitted to your office dated 15 June 2023. Your prompt action is required in this matter.

It is also important to mention that when ME&IE Consultants pointed out certain stuck-up cases to FPMU, a quick response has been observed from FPMU vide its Letter dated 12 July 2023 and raise the issue with executing agencies to settle the issue on priority basis.

# ANNEXES A to R

**ANNEXURE A: TENTATIVE WORK PLAN FOR THE 3<sup>RD</sup> QUARTER OF 2023-24 (JAN TO MARCH-2024)**

5	Assessing the water saving per annum on watercourse and water storage tanks as well as aggregate due to the project interventions.	-	-	-	●
6	Assessing the improvement in water availability due to provision of conveyance system.	-	-	-	●
7	Assessing the economic benefits to the agriculture in terms of increase in yield, irrigated area, cropping pattern, cropping intensity, farm income and employment in command area of watercourses and water storage tanks.	-	-	-	●
8	Assessing the extent of community mobilization, financial and administrative sustainability of Water Users' Associations and ensuring the maintenance of watercourses, water storage tanks and laser land levelers.	-	-	-	●
9	Economic Impact of project interventions.	-	-	-	●
10	Carryout impact evaluation of the project investment on the economy and stakeholders.	-	-	-	●
11	Preparation of Monthly, Quarterly and Annual Monitoring, Evaluation and Validation Reports of the project activities.	-	-	-	●
12	Develop a website containing information of facilities and services, applications, procedures, watercourses, water storage tanks, and laser levelers database etc. (Maintaining website should be the responsibility of project staff).	-	-	-	●
13	Provide technical support for the development of a custom-designed mobile application (Android) to capture on-site project progress, geo tagged photos; should be synchronized with the central MIS/GIS database and application for instant reporting and feedback to the	-	-	-	●

ANNEXURE C: MONITORING LOG-FRAME

Project Sub-components	Targets	Activities	Outputs	Outcome-1	Outcomes-2	Goals / Impact	Methodology for measuring results
<b>C1: Organization of Water Users' Associations (WUAs)</b>	Reactivation of existing / organization of water users' associations. Ensuring one on each target watercourse. Total WUAs ensured 47,278.	i. Community mobilization at 47,278 watercourses	i. Total 47,278 WUAs reactivated / established/register ed	i. Right of way of 47,278 watercourses available ii. Skilled and unskilled labor required for watercourse improvement available iii. Construction material for civil works of watercourses procured iv. Alternate arrangement for water conveyance during construction made v. Watercourse improved	i. Disputes among the water users settled ii. Farmers branched improved iii. Water allocation made amicably iv. Maintenance of watercourses, WST and laser units done v. Cooperation among farmers increased	i. 47,278 watercourses improved and 15 percentage points conveyance losses reduced ii. Litigation among farmers reduced	i. The functioning of the WUAs will be established through sample interview surveys of WUAs members twice during the project period
<b>C2: Watercourses Improvements</b>	Improvement of 47,278 watercourses on cost sharing basis: 40% farmers in terms	i. Establishment of 47,278 Water users' associations (WUAs); ii. Registration	i. 47,278 WCAs established; ii. 47,278 WCAs registered; iii. 47,278 watercourses improved and lined;	i. Conveyance losses for improved watercourses decreased by about 15	i. Increase in cropping intensity on improved watercourses by 5-24%;	i. Increase in farm income; ii. Increase in employment for farm labor;	i. The water flow measurements will be carried out at before and after watercourse

Project Sub-components	Targets	Activities	Outputs	Outcome-1	Outcomes-2	Goals / Impact	Methodology for measuring results
	of labor, and 60% funded by project.	of 47,278 WUAs; iii. Improvement and realignment of earthen section of 47,278 watercourses ; iv. Lining of up to 50% length of 47,278 watercourses either by: v. Precast concrete parabolic lining (PCPL) segments, or vi. Rectangular brick masonry, or any other method as approved by the project		percentage points. ii. 1.654 million households benefited from the activity; iii. 11.347 million acres served with improved watercourses	ii. Increase in crop yields. iii. Increase in irrigated area iv. Increase in agriculture output per unit of water by about 37%	iii. Reduction in poverty; iv. Enhanced food security for the country.	improvement on 2-5% sample basis; ii. Agriculture survey before and after watercourse improvement on 2-5% sample basis; iii. The survey will determine: iv. Cropping pattern before and after the improvement; v. Cropping intensities before and after improvement; • Before and after crop yields; • Before and after employment; vi. The difference between before and after will be

Project Sub-components	Targets	Activities	Outputs	Outcome-1	Outcomes-2	Goals / Impact	Methodology for measuring results
							considered the result of the intervention after netting out the contribution of the growth pattern of the crop sector otherwise.
<b>C3: Construction of Water Storage Tanks (WSTs)</b>	<ul style="list-style-type: none"> <li>i. Construction of 14,932 water storage tanks</li> <li>i. 14,932 small farmers mobilized to construct water storage tanks for irrigation</li> <li>ii. They agree to contribute 40% of the cost</li> <li>iii. Agree to first construct the tank with his/her own funds and then received subsidy at 40% on issuance of FCR</li> </ul>	<ul style="list-style-type: none"> <li>i. 14,932 constructed WSTs</li> <li>ii. 14,932 operated WSTs and maintained</li> </ul>		<ul style="list-style-type: none"> <li>i. Water which was otherwise largely going to be wasted is saved</li> <li>i. Irrigation provided at critical stages of the crops</li> <li>ii. Flexibility achieved for irrigation</li> </ul>	<ul style="list-style-type: none"> <li>i. More area irrigated</li> <li>ii. Increased cropping intensities</li> </ul>	<ul style="list-style-type: none"> <li>i. Increased crop yields</li> <li>ii. Increased total crop output quantum</li> <li>iii. Increased farm income</li> <li>iv. Increased farm employment</li> </ul>	<ul style="list-style-type: none"> <li>i. 2-5% sample of WSTs will be surveyed</li> <li>ii. A data collection form will be designed to measure water saving due to WSTs</li> <li>iii. The forms used for baseline and impact surveys in case of watercourses will also be used for WSTs</li> <li>iv. Same data analysis will be carried out here as in case</li> </ul>

Project Sub-components	Targets	Activities	Outputs	Outcome-1	Outcomes-2	Goals / Impact	Methodology for measuring results
							of watercourses.
<b>C4: Provision of Land Leveling Units</b>	i. Provision of 11,610 laser land leveling units to farmers and service providers on a cost sharing basis: 50% by farmer / service provider and 50% by the project.	i. 11,610 laser units provided to farmers / service providers; ii. Farmers trained in using the units.	i. 11,610 farmers / service providers received PLL units; ii. Farmers / service providers received training in using the units.	i. Land leveled on Farmers' / service providers' farms; vi. Land leveled on fellow farmers on rent; vii. Total 3.483million acres leveled by 11,610 units.	i. Water application efficiency increased at field level; viii. Even germination of seed. ix. Field application losses reduced by 10 percentage points x. Water productivity increased by 24%	i. Increased area under irrigated crops; ii. Enhanced crop yields iii. Increased farm income xi. 2-4% sample units will be visited by ME&IE Consultants teams after one years of delivery xii. The unit will be verified xiii. Area treated during the	i. The land leveling is expected to save irrigation water and result in better and even germination of seeds which can enhance crop yields. The crop yields thus affected will be reflected in agriculture sample surveys. xii. The unit will be verified xiii. Area treated during the

Project Sub-components	Targets	Activities	Outputs	Outcome-1	Outcomes-2	Goals / Impact	Methodology for measuring results
							year will be collected xiv. Farmers' feedback collected on quality of the unit, quality of the after-sale service, etc.

## ANNEXURE D: DELIVERABLES / REPORTING REQUIREMENTS

### Deliverables/Reporting Requirements

Sr. No	Document	Copies	Due
1	Draft Inception Report	8	45 days after the effectiveness of the Consulting services Agreement.
2	Final Inception Report	15	One week after the issuance of comments by the Client on Draft Inception Report
3	Monthly Monitoring Report	10	10 <sup>th</sup> of the following month
4	Baseline Survey Report	10	4 months after start of the assignment
5	Midline Survey Report	10	In the middle of the assignment
6	End line Survey Report	10	At the end of the End line survey
7	Quarterly Monitoring and Evaluation Report	10	10 <sup>th</sup> of the first month of following quarter
8	Annual Monitoring and Evaluation Report	10	During first month of following year
9	Draft Assignment Completion Report	5	At completion of physical works / activities
10	Final Completion Report	25	At completion of works as well as financial transactions
11	Special Reports	10	As and when required
